Soil BINGO!

Directions: With your group, examine the soil sample in front of you. You may gently pick through the soil to find different items and organisms within the soil. When you find an item on your BINGO card, shade the space in. You should wash your hands with soap after completing this activity.

Root	Fungus	Centipede	Worm
Twig	Grub (Insect Larva)	Leaf	Sand
Bone	Small Soil Particles (silt, clay)	Tree Bark	Insect Egg
Insect	Seed	Rock	Aggregate

Questions to Answer on the Back

1. Where did this soil come from?
2. Did you see any living things (or parts of living things) in this soil? If so, what?
3. Describe how this soil feels.
4. Describe the smell of this soil.
5. Identify two things you saw in this soil that surprised you or that you did not expect to see.
